# About us

Founded in 1978, Pneumatic Engineering is a Western Australian owned and operated company specialising in pneumatics. Being privately owned ensures we work with our customers front of mind, while also having the flexibility to work on all makes of compressors, blowers and air filtration systems.

Starting as a service provider, Pneumatic Engineering has seen significant growth that has enabled us to expand our offering and deliver a more comprehensive service. This offering includes the sale, service and repair of all makes and models of compressors and blowers around the clock 24/7. Making this possible is our team of highly experienced service and sales staff.

We stock all leading brands including ELGI, Donaldson, Mann + Hummel, Proair and more. Our products and services are available anywhere in Western Australia.

## Service

### Repair, Maintenance & Inspection

To ensure your business has no delays, it is important to keep your assets maintained and in operational condition. We can manage and maintain your compressor, blower or dryer including the distribution, to a level that best suits your application. Whether you have one compressor or multiple, we have the highly skilled team to do the job.

If you find yourself in the unfortunate position where one of your costly assets requires repair, Pneumatic Engineering has experience with ELGI, Kaeser, Atlas Copco, Ingersoll Rand, Champion, Sullair, Abac, Comp Air, Gardner Denver, Sutorbuilt, Donaldson and more. The repair could be as simple as fault finding and repairing an electrical sensor to a complete compressor overhaul.

## Hire

Our large fleet is built up of Electric and Diesel driven Compressors. Meeting the HSE requirements these can be used onsite or in your local factory.

To compliment the hire fleet, we stock a range of Air Dryers and specialised Filtration so even the strictest of air quality can be supplied on a short or long term agreement.

Hire can allow you to control your capital expenditure and have no maintenance hassles. Included in the hire costs our technicians will come and complete the servicing, so you don't have to.

# Products

As Western Australia's leading supplier of air compressors, blowers and filtration, we stock a wide range of high-quality machinery and equipment.

With the flexibility of being able to supply all brands and products, let us do the ground work and get all your needs from the one location. All this with the confidence its being delivered by one of the longest running compressor companies in Australia.
